Synopsis

Collateral is a gripping and suspenseful thriller that follows the story of Detective Mike Travis, a hardened cop who has seen it all. But when he's assigned to investigate the murder of a young woman, he quickly realizes that this case is unlike anything he's ever encountered before.

The victim, Sarah Jones, was a brilliant scientist who was working on a top-secret project for the government. Travis soon discovers that Sarah's murder was no random act of violence. It was a targeted hit, and the killer is determined to silence anyone who gets in their way.

As Travis investigates deeper, he uncovers a web of corruption and conspiracy that reaches the highest levels of power. He realizes that Sarah's murder is just one piece of a much larger puzzle, and that he's now in the crosshairs of a dangerous and ruthless enemy.

With his life on the line, Travis must race against time to stop the killer and expose the truth. But as he gets closer to the truth, he realizes that he's not just fighting for justice. He's fighting for his own survival.
