What's Inside the NCAC Test Review?

The NCAC Test Review is a comprehensive study guide that covers all of the material that you'll be tested on, including:

- **Addiction counseling theory:** This section covers the major theories of addiction, including the disease model, the biopsychosocial model, and the spiritual model. It also discusses the different stages of addiction and the process of recovery.
- **Addiction assessment:** This section covers the different methods used to assess addiction, including the DSM-5 criteria, the ASI, and the CAGE questionnaire. It also discusses how to conduct a comprehensive addiction assessment.
- **Addiction treatment planning:** This section covers the different treatment options available for addiction, including inpatient treatment, outpatient treatment, and medication-assisted treatment. It also discusses how to develop a treatment plan that meets the individual needs of the client.
- **Addiction counseling techniques:** This section covers the different counseling techniques used to treat addiction, including motivational interviewing, cognitive-behavioral therapy, and family therapy. It also discusses how to use these techniques effectively.
- **Ethics and legal issues in addiction counseling:** This section covers the ethical and legal issues that addiction counselors must be aware of, including confidentiality, informed consent, and dual relationships. It also discusses how to avoid ethical and legal problems.

In addition to the core content areas, the NCAC Test Review also includes:

- **Over 1,000 practice questions:** These questions are designed to help you assess your knowledge of the material and identify areas where you need additional study.
- **Detailed explanations of the correct answers:** These explanations will help you understand why the correct answers are correct and why the incorrect answers are incorrect.
- **A full-length practice exam:** This exam is designed to simulate the actual NCAC exam. It will help you assess your readiness for the exam and identify any areas where you need additional practice.
